

We are a fully inclusive, friendly group consisting mostly of amateurs, with a keen interest in geology and earth sciences.  
Lectures are by experts in their field and field meetings are arranged for most months of the year.  
New members: please come along to a meeting and make yourself known to a committee member when you arrive.

## **Logistics**

You need to sign up for a field meeting.

Travel is by members' cars or possibly a minibus if the numbers are sufficient, with costs shared between members. Alternatively, you may wish to travel independently. When a visit requires specific equipment - for instance hard hats, torches or wellingtons - you will be notified in advance.

At each lecture, there will normally be lists displayed for the forthcoming field meetings, alternatively to register for a field meeting online go to the website.

If you have suggestions for visits or would like to lead one, we would be delighted to hear from you.

## **Safety**

***All attendees need to sign a Risk Assessment Document***

***Safety on field meetings is taken very seriously. Should you be unsure about either the risks involved or your ability to participate, you must seek advice from the leader. Please make sure you understand the risk assessment offered by the leader of the meeting and that you have the safety equipment specified. You must declare, at the time of booking, any disabilities or medical conditions that may affect your ability to safely attend this field meeting. In order to ensure the safety of all participants, the RGS reserves the right to limit or refuse attendance at field meetings. By signing up to a field meeting you are confirming you have read this safety briefing note, are accepting the risks and responsibilities and are permitting the RGS to keep your contact details for the duration of the trip.***
